26th March 2015

Dear Sirs,

Molex Premise Networks recognises the Certified Network Cable Installer (CNCI®) programme as an acceptable qualification for structured cabling installers who are wishing to become a Molex Business Partner who can offer our 25 Year System Performance and Application Assurance Warranty. The CNCI qualification would reduce the Molex training requirements to a minimal online only course.

Regards,

A handwritten signature in black ink, appearing to read "Neil Taylor". The signature is fluid and cursive, with a large loop at the end.

Neil Taylor
